This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

[Senate Joint Resolution No. 38.]

JOINT RESOLUTION

Directing the attorney general to institute a suit in quo warranto.

WHEREAS, A special act entitled "an act to establish a police-force in the city of Xenia," passed March 25, 1880 (77 O. L., page 350), withdrew from that city all the police-powers vested in it by the general laws for cities of its grade (sections 2023–2030 revised statutes), and lodged them in a board of police-commissioners appointed by the court of common pleas of Greene county; abolished the office of marshal of the said city, without repealing the general law (section 1707 revised statutes which provides that "the officers of a city of the second class shall consist of a mayor, marshal," etc.; and authorized the payment of salaries to the said police-force out of the general fund of the city, and also the levy of a tax for such payment other than and additional to that provided for by the general law (section 2683, clause 21, revised statutes); and

WHEREAS, This special act raises constitutional questions whose judicial settlement would be of great value to the general assembly—namely:

(1) Whether, while "the general assembly shall pass no special act conferring corporate powers," it may pass a special act withdrawing corporate powers;

(2) Whether, while a city must be organized by general laws (Cons., Art. XIII., Sec. 6), it may be or would be disorganized by a special law through the abolition of one or more of its organic offices;

(3) Whether a tax already levied and collected by a municipal corporation for one purpose can be diverted to another by a special act of the general assembly; and

(4) Whether the conferring, by special act, of a power of taxation on a municipal corporation other than and additional to that authorized by the general laws comes within the inhibition of section 1 of article XIII of the constitution; therefore,

Resolved by the General Assembly of the State of Ohio, That the attorney-general is hereby directed to institute a proper action in quo warranto against the police-commissioners appointed under the said special act, inquiring by what authority they hold their offices or trusts, and to procure, if practicable and as soon as practicable, a decision of the supreme court on the several constitutional questions herein suggested.
